snatched away the mobile set of the informant. Thereafter they started assaulting the informant on the back side of head with an iron rod and as a result he fell down on the road. Thereafter those miscreants abducted the wife of the informant with the said Maruti Alto vehicle and fled away from the scene of occurrence.

50. These are the synopsis of the evidence on record of the prosecution in respect of determination of the points framed by the Learned court below. At the time of hearing of argument Learned Senior Counsel Mr. P.K. Biswas assisted by Mr. P. Majumder, Learned counsel submitted before the court that the prosecution before the case at hand failed to prove the charge of committing rape by the convict appellant to the victim on the alleged date because the prosecution in this case could not adduce any independent eye witness to sustain the charge against the convict appellants rather Learned Senior counsel submitted that from the evidence on record only the charge of committing dacoity may be inferred. Learned Senior counsel further submitted that since the prosecution has failed to

prove the charge beyond reasonable doubt against the appellants. So he urged for interference by this court and prayed for acquitting the appellants from the charge of this case.

51. Mr. J. Bhattacharjee, Learned counsel at the very outset reiterating the same submission made by Learned Senior counsel Mr. P.K. Biswas submitted that in this case prosecution has failed to prove the FIR on the basis of which the prosecution was set into motion. So in absence of proof of FIR there was no scope to presume the convict appellants to be guilty. Furthermore, the statement of the victim suffers from various infirmities which the prosecution has failed to explain. Most of the witnesses specifically the informant and the victim during their examination made improved version before the court i.e. the statements first time they made before the court and on the basis of that there was no scope to take any adverse presumption of guilt against the appellants. So as per law for non-explanation of the improved version of evidence the convict-appellants are entitled to get the benefit of doubt in this case. Furthermore, the TI parade was conducted not accordance with the established procedure of law. So due to the infirmity in the evidence on record there is no scope to affirm the conviction and according to Learned counsel the prosecution has utterly failed to prove the charge against the convict-appellants and urged for acquitting the appellants from the charge of the case. Mr. Bhattacharjee,

Learned counsel further submitted that from the evidence on record it appears that the alleged victim undergo treatment at Khumulung but why she did not divulge the fact to anybody soon after the incident no explanation was given in this regard by the prosecution and furthermore why inspite of undergoing treatment at Udaipur she went to Khumulung there is also no explanation in this regard from the side of the prosecution for which a doubt creates about the genuineness of the prosecution story.

52. Another Learned Senior counsel Mr. T. D. Majumder assisted by Mr. T. Halam, Learned counsel representing the appellants namely Saddam Hussein and Rabban Ali submitted that there is no evidence on record against his clients. But the Learned court below on the basis of such omnibus statements in absence of clear and cogent evidence on record convicted the appellants without any basis. So Learned Senior counsel Mr. Majumder urged for acquitting the appellants from the charge in this case.

53. Learned Senior counsel Mr. P.K. Biswas referred few citations in support of his contention which would be discussed in due course of time.

54. On the other hand, Learned PP Mr. Raju Datta representing the prosecution submitted that in this case except the informant and the victim there is/are no other eye witnesses who had the occasion to see the alleged occurrence of offence and the evidence of informant and the victim is so trustworthy that there is no room to disbelieve

their evidence and furthermore, the convict-appellants by the trend of cross-examination could not raise any ground to disbelieve the evidence of the informant as well as the victim. Even by the trend of cross-examination the convict-appellants could not unshake the evidence on record and the other witnesses of the prosecution. So according to Learned PP the Learned Trial court below rightly and reasonably after elaborate discussions of the evidence on record found the appellants to be guilty and urged before the court to uphold the sentence and order of conviction awarded by the Learned court below. He also referred few citations. Learned PP further submitted that the allegation against the appellants were so serious and heinous that there is no scope to show any lenient view to them and submitted that the prosecution case is well proved against the appellants and as such the present appellants deserves punishment and urged for upholding the sentence awarded by the Learned court below.

55. We have heard detailed submission of Learned counsels of the appellants as well as Learned PP representing the state-respondents and also gone through the record of the Learned court below. PW-40 deposed that on 25.11.2021 being the OC of R.K. Pur Women PS she received an ejahar and entered the same vide GD entry No.25 dated 25.11.2021 and thereafter she registered R.K. Pur Women PS Case No.2021WRP077 under Section 376D of IPC and she identified the printed FIR Format and identified her signature on the margin of ejahar. PW-41 Sumitra Kapali deposed that on 20.11.2021 in the morning at around 4.30/5.00 am after receiving a call from Duty Officer of R.K. Pur PS she proceeded towards Tepania area along with staff when she recovered the victim from the main road and she found severe injuries on different parts of her body. After that the victim was brought to R.K. Pur Women PS and after that she was sent to TSSD Hospital, Udaipur for medical examination and recorded the statement of the victim.

56. All those witnesses were thoroughly cross-examined by the appellants-accused but their evidence could not be shattered at any length by the accused persons. From the evidence on record it appears that just 8/9 days back prior to the date of alleged occurrence of offence the victim got married with the informant. Her condition was so critical with pain that due to social stigma

she could not divulge those facts just after the incident to any person even to the police station also. After returning back to home when her family members noticed her injuries that time she had divulged everything to her husband and in laws. She went to TSSD Hospital but considering the crowd she could not take admission therein. After that she went to Khumulung Hospital wherein she narrated everything to the police and her FIR was also lodged and finally she was sent to AGMC & GBP Hospital where a team of three doctors examined her and finally they opined that there were signs of forceful sexual intercourse upon the victim. In course of hearing of argument Learned counsels for the accused appellants tried to draw the attention of the court that there was delay in lodging the FIR. So the prosecution story was not true. Even the allegation of rape could not be proved. But after going through the entire evidence on record it appears that the witnesses of the prosecution specifically PWs-1, 2, 3, 4, 5, 6 and 7 in course of their examination deposed in such a manner that there was no room to disbelieve their evidence. Learned court below after elaborate discussion of the evidence on record came to the observation that the appellants committed the crime on the date as alleged.

57. In course of hearing Learned Senior counsel Mr. P.K. Biswas referred some citations. In **State of Karnataka vs. Venkatesh and Others** reported in **1992 Supp (1)**

SCC 539 Hon'ble the Supreme Court in para No.3 observed as under:

"3. We have perused the evidence of all the witnesses referred to above. They do not inspire any confidence at all. The denial by PW 23, Madadevamma, of having had any illicit intimacy with the deceased coupled with the fact that PW 15, Cheluvamma, the ace witness of the prosecution, having not disclosed the information at the earliest opportunity to anyone till November 10, 1978, has created serious doubts about the genuineness of the prosecution case. Since, the Sub-Inspector admitted that he had not even visited the house of any one of the accused-respondents on November 9, 1978 to arrest them, the failure of the accused-respondents to appear before the police cannot give rise to any inference of their guilt and therefore the alleged circumstance of absconding was not rightly used by the learned Sessions Judge against the accused-respondents. The conduct of PW 8, Madaiah, PW 14, Javariah, and PW 25, Cheluvaraju, is so unnatural that it would not be safe to place any reliance on their testimony. No explanation, much less a satisfactory one, has been given by the prosecution for their long silence."

Referring the same Learned Senior counsel submitted that there was delay in lodging the FIR, which the prosecution has failed to explain in this case.

58. In **State of Orissa vs. Mr. Brahmananda Nanda** reported in **AIR 1976 SC 2488**, in para No.2 Hon'ble the Apex Court observed that:

"2. The entire prosecution case against the respondent rests on the oral evidence of Chanchala (PW. 6) who claimed to be an eye-witness to the murder of Hrudananda, one of the six persons alleged to have been killed by the respondent. The learned Additional Sessions Judge believed her evidence, but the High Court found it difficult to accept her testimony. The High Court has given cogent reasons for rejecting her evidence and we find ourselves completely in agreement with those reasons. We have carefully gone through the evidence of this witness, but we do not think we can place any reliance on it for the purpose of founding the conviction of the respondent. The evidence suffers from serious infirmities which have been discussed in detail by the High Court. It is not necessary to reiterate them, but it will be sufficient if we refer only to one infirmity which, in our opinion, is of the most serious character. Though according to this witness, she saw the murderous assault on Hrudananda by the respondent and she also saw the respondent coming out of the adjoining house of Nityananda where the rest of the murders were committed, she did not mention the name of the respondent as the assailant for a day and a half. The murders were committed in the night of 13th June, 1969 and yet she did not come out with the name of the respondent until the morning of 15th June, 1969. It is not possible to accept the explanation sought to be given on behalf of the prosecution that she did not disclose the name of the respondent as the assailant earlier than 15th June, 1969 on account of fear of the respondent. There could be no question of any fear from the respondent because in the first place, the respondent was not known to be a gangster or a confirmed criminal about whom people would be afraid, secondly, the police had already arrived at the scene and they were stationed in the Club House which was just opposite to the house of the witness and thirdly, A.S.I. Madan Das was her nephew and he had come to the village in connection with the case and had also visited her house on 14th June, 1969. It is indeed difficult to

believe that this witness should not have disclosed the name of the respondent to the police or even to A.S.I. Madan Das and should have waited till the rooming of 15th June, 1969 for giving out the name of the respondent. This is a very serious infirmity which destroys the credibility of the evidence of witness. The High Court has also given various other reasons for rejecting her testimony and most of these reasons are, in our opinion, valid and cogent. If the evidence of this witness is rejected as untrustworthy, nothing survives of the prosecution case."

Referring the same Learned Senior counsel submitted that the evidence of prosecution specifically the evidence of the victim and her husband are found suffers from various infirmities and there is no scope to place any reliance upon their evidence and prayed for acquittal of the accused appellants.

59. In **Satyapal vs. State of Haryana** reported in **(2009) 6 SCC 635** Hon'ble the Supreme Court observed in para No.21 as under:

"21. This Court can take judicial notice of the fact that ordinarily the family of the victim would not intend to get a stigma attached to the victim. Delay in lodging the First Information Report in a case of this nature is a normal phenomenon. Both the courts below apart from relying on a part of the testimony of the prosecutrix found the evidence of PW-5 to be absolutely reliable. The medical evidence itself being a part of the evidence is required to be appreciated in the context of ocular evidence and other circumstances surrounding thereto. There was some time gap between the occurrence and the examination of the witnesses. Some lapse of memory on the part of the child witness, therefore, is possible."

Referring the same Learned Senior counsel submitted that in this case the TI Parade was not conducted properly and the entire proceeding of TI Parade was not in accordance with law.

60. In **Durbal vs. State of U.P.** reported in **2011 CRI.L. J. 1106**, Hon'ble the Apex court observed in para No.15 as under:

"15. It is also required to note that all the eyewitnesses had stated in their evidence that lantern was burning in the verandah and Kaldhari (PW 1), Sheo Kumar (PW 2) and Sonai (PW 3) were having torch lights in their hands

and only with the help of the lantern and the torch lights they could recognize and identify the assailants. The lantern and the torch lights though were alleged to have been seized vide seizure mahazar Exts. Ka-2 and Ka-3 respectively, were not produced in the Court. The seizure memos Ext. Ka-2 and Ka-3 did not contain the crime number and other recovery particulars. In the circumstances, it becomes highly doubtful as to whether those torch lights and lantern were actually seized during the course of investigation by the Investigating Officer. The Investigating Officer (PW 8) did not explain as to why the crime number was not noted on Ext. Ka-2 and Ka-3 and as to why the material objects if at all seized, were not produced in the Court. The very fact that the lantern and torch lights were pressed into service for the purpose of identifying the accused, itself suggests that it was a pitched dark night during the mid winter and it was not possible to identify the assailants without the aid of lantern and torch lights. It is highly doubtful as to whether PWs 1, 2 and 3 had actually torch lights in their hands as stated by them, in the absence of their recovery details in the seizure memo and their not production before the Court. Moreover, Kaldhari (PW 1) refused to state as to whether the assailants were covering their faces with chadar. His evidence does not inspire any confidence."

Referring the same Learned Senior counsel submitted that in this case the prosecution could not satisfy the court how the victim and her husband could identify the present appellants as the alleged accused persons on the day of commission of offence. No explanation in this regard was made by the prosecution.

61. In **Jayanta Kalai & Ors. vs. State of Tripura** reported in **2013 (2) GLT 450**, the Agartala Bench of Gauhati High Court in para Nos.24 and 54 observed as under:

"(24) Mr. Biswas, learned counsel for the appellants further pointed out that the T. I. Parade as conducted for establishing the identification of the offenders cannot be accepted as from the examination-in-chief of the prosecutrix (P. W. 2) it appears that she stated that she had seen the accused persons in the police station and she had also shown the persons in the jail. She further admitted that "it is true that they had shown the miscreants in the jail according to the showing of the police officer in the police station and other prosecutrix (P. W. 5) was with her on all the dates when she went to the police station." But in the examination-in-chief the prosecutrix (P. W. 2) categorically stated that five miscreants committed rape on her. Mr. Biswas further stated that the T. I. Parade, as conducted, was full of flaws, in breach of the procedure guaranteeing assurance from the outcome of the T. I. Parade. Learned counsel drawing attention of this Court to the statement of the P. W. 15, Sri T. C. Roy Bhowmik, Judicial Magistrate, who conducted the T. I. Parade, stated that the said witness had candidly admitted in the cross-

examination that he had not mentioned in the order sheet dated 03. 07. 2003 as regards the circumstances of identification of the suspects by the witness though he had mentioned it in the printed T. I. Parade Form. He further admitted that he had not brought any person from koloi community to mix up the suspects of Koloi community before holding the T. I. parade. Mr. Biswas ultimately submitted that the judgment of conviction is liable to be interfered with for the reason that there is no legal evidence against the appellants and their identification as accepted by the Court is shrouded by serious doubt. As such the appellants are entitled to benefits.

54. P.W. 2 also stated that four miscreants are present in the Court and identified. However, she denied to identify the three persons in the dock, who were identified during test identification parade. But she made a statement which is fatal for the prosecution case so far it relates to identification of the offenders. She stated in the cross-examination that "I have seen the accused persons in the P.S. and I have shown these persons in the jail". Even though the statement has not been confirmed by PW.5 and PW. 16. But it generated two versions in the prosecution case. She further stated that it is true that we have shown the miscreants in the jail according to showing of the police officer in the P.S. She further stated PW. 5 accompanied her whenever she visited the police station. In view of this, the purpose of test identification parade has been debased. Therefore, it would not be safe on the basis of such identification to affirm the finding of conviction against the appellant Nos. 1, 3 and 4 inasmuch as P.W. 16 did not disclose anything how and in what manner the appellant Nos. 1, 3 and 4 were arrested for their involvement in the offence. So far the appellant No. 5 is concerned, he was identified in the dock after lapse of about 3 years from the date of occurrence first time in the dock. Such identification as well cannot be made the basis of returning the finding of conviction in consideration of time and place of occurrence."

Referring the same Learned Senior counsel further submitted that in this case the prosecution failed to prove the proceeding of TI Parade, as to how the victim and her husband could identify the accused appellant to substantiate the charge against the present appellants of this case. Because in absence of clear evidence on record regarding identification of the alleged accused persons there was no scope to convict the appellant but the Learned court below in absence of such evidence failed to appreciate the evidence on record properly and convicted the appellants for which the interference of the court is required and finally Learned Senior counsel along with other counsels representing the appellants submitted that the prosecution

case suffers from various infirmities and on the face of evidence on record there was no scope to presume the appellants to be guilty and prayed for allowing the appeal by setting aside the judgment of the Learned court below.

62. In course of hearing of argument Learned Senior counsel for the appellants although submitted that in this case prosecution could not give any explanation as to why the victim inspite of taking admission in TSSD Hospital, Udaipur went to Khumulung for her medical examination in this regard due explanation is given by the prosecution in course of hearing of argument that she was newly married and after attending PS on the alleged day she returned back to her home and at the time of her bath her family members noticed severe injuries on her persons and being enquired she had divulged those facts to her family members and ultimately she went to consult a Doctor at Udaipur Hospital but showing crowd therein she went to Khumulung Hospital. It is on record that the victim was newly married. May be because of mental trauma and shame she could not divulge the fact of such barbarous act by the appellants being a rustic lady. So the argument of Learned Senior counsel that the evidence of victim suffers from infirmity cannot be accepted.

63. Per contra, Learned PP representing the State prosecution in course of hearing referred some citation as already discussed above. In **Santosh Kumar vs. State of**

M.P. reported in **(2006) 10 SCC 595** in para No.11 Hon'ble the Supreme Court observed as under:

"11. The medical examination report of the victim shows that she received injuries on front portion of the body and also on her hands. The mere fact that no injuries were found on private parts of her body cannot be a ground to hold that no rape was committed upon her or that the entire prosecution story is false. It may be noted that Halki Bai is a married grown up lady and in such circumstances the absence of injuries on her private parts is not of much significance."

Referring the same Learned PP submitted before the court that from the total facts and circumstances of the case there was no scope to disbelieve the evidence on record of the victim and there was no scope to disbelieve the medical injury report of the victim examined by the three doctors and there is clear evidence of forceful sexual intercourse upon the victim by the present appellants. So Learned PP urged for exemplary punishment against the appellants upholding the sentence imposed by Learned Trial court below.

64. In **State of Chhattisgarh vs. Derha** reported in **(2004) 9 SCC 699** Hon'ble the Apex court in para-7 observed as under:

"7. We have noticed the fact that there has been some delay in filing the complaint which according to us has been explained by PW-1, the mother. The fact that their father was out of station on the date of occurrence is not disputed. In such circumstances since it is a minor who was violated, the possibility of there being hesitation on the part of mother to lodge a complaint cannot be over ruled. Even otherwise the mere factum of delay in filing complaint in regard to an offence of this nature by itself would not be fatal so as to vitiate the prosecution case. The fact that the accused did not suffer any injury on his private part also will not be of much help to him because he was medically examined 4 days after the incident in question. For the reasons stated above, we are satisfied that the High Court was in error in taking a view different from that of the trial court and acquitting the accused."

Referring the same Learned PP submitted that although there were two FIRs in this case. One was made

by the informant after the occurrence and another was lodged by the victim at Khumulung Hospital and later on, both the FIR clubbed together and from the contents of the FIR and the corroborative statement of the informant and victim there was no scope to disbelieve the evidence on record of the informant i.e. the victim of this case and more so, the accused appellants as already stated by the trend of cross-examination could not raise any doubt or cloud to disbelieve their evidence. So according to Learned PP, the Learned court below after elaborate discussions of the evidence on record has rightly found the appellants to be guilty and convicted them accordingly and there was no scope to interfere with the judgment awarded by the Learned court below.

65. In **Birbal Nath vs. State of Rajasthan and Ors.** reported in **2023 SCC OnLine SC 1396** Hon'ble the Apex court observed in para No.20 and 21 as under:

"20. No doubt statement given before police during investigation under Section 161 are "previous statements" under Section 145 of the Evidence Act and therefore can be used to cross examine a witness. But this is only for a limited purpose, to "contradict" such a witness. Even if the defence is successful in contradicting a witness, it would not always mean that the contradiction in her two statements would result in totally discrediting this witness. It is here that we feel that the learned judges of the High Court have gone wrong.

21. The contradictions in the two statements may or may not be sufficient to discredit a witness. Section 145 read with Section 155 of the Evidence Act, have to be carefully applied in a given case. One cannot lose sight of the fact that PW-2 Rami is an injured eye witness, and being the wife of the deceased her presence in their agricultural field on the fateful day is natural. Her statement in her examination in chief gives detail of the incident and the precise role assigned to each of the assailants. This witness was put to a lengthy cross examination by the defence. Some discrepancies invariably occur in such cases when we take into account the fact that this witness is a woman who resides in a village and is the wife of a farmer who tills his land and raises crops by his own hands. In other words, they are not big farmers. The rural setting, the degree of articulation of such a witness in a Court of Law

are relevant considerations while evaluating the credibility of such a witness. Moreover, the lengthy cross examination of a witness may invariably result in contradictions. But these contradictions are not always sufficient to discredit a witness. In *Rammi v.State of M.P.* (1999) 8 SCC 649, this Court had held as under:

"24. When an eyewitness is examined at length it is quite possible for him to make some discrepancies. No true witness can possibly escape from making some discrepant details. Perhaps an untrue witness who is well tutored can successfully make his testimony totally non-discrepant. But courts should bear in mind that it is only when discrepancies in the evidence of a witness are so incompatible with the credibility of his version that the court is justified in jettisoning his evidence. But too serious a view to be adopted on mere variations falling in the narration of an incident (either as between the evidence of two witnesses or as between two statements of the same witness) is an unrealistic approach for judicial scrutiny."

Referring the same Learned PP submitted that in a criminal prosecution it cannot be expected that all the witnesses in toto support the versions of each other because the witnesses in course of their examination may gave different statements because their maturity of understanding, observance and their knowledge about the alleged occurrence may vary from persons to persons.

66. Learned P.P. further submitted that although in this case there are some minor improvements i.e. the witnesses in course of their examination made some improvements before the court and also there are some minor contradictions, but for those improvements and minor contradictions there was no scope to disbelieve the evidence on record of the prosecution because the accused-appellants as already stated inspite of thorough cross-examination of the informant and his wife i.e. the victim could not raise any circumstance in any manner to disbelieve their evidence because excepting them no other witnesses had any scope to see the occurrence and there is

no other evidence on record that some other persons were present at that time excepting them . So Learned PP urged for dismissal of the appeal.

67. From the aforesaid principles of law laid down by the Hon'ble Supreme Court it appears to us that the citations as referred by Learned Senior counsels appearing for the appellants are not relevant for decision of this present appeal so we do not find any scope to apply the principle of the aforesaid citations in delivering this judgment. On the other hand the citations as referred by Learned PP appears to be more reasonable and appropriate for decision of this case considering the facts and circumstances of this case. So we have taken note of those judgments at the time of preparation of judgment of this appeal. As already stated in this case the evidence of victim, her husband and her in laws and also PWs 5, 6 and 7 are so convincing and trustworthy that there is no room to disbelieve their evidence and for minor contradictions there is no scope to disbelieve the prosecution story because the appellants by the trend of cross-examination could not raise any circumstance to believe that they have been falsely implicated in this case. Rather from their act and conduct it appears that on the alleged day they have committed such heinous crime for which there is no scope to show any mercy to them and thus in our considered opinion the Learned court below after elaborate discussions of the evidence on record has rightly convicted the appellants of

this case and also we do not find to scope to show any lenient view in regard to sentence imposed by the Learned court below.

68. In the result, the three appeals filed by the appellants deserve no interference and accordingly stands dismissed and rejected being devoid of merit. The judgment and order of conviction and sentence imposed by Learned Addl. Sessions Judge, Gomati Judicial District, Udaipur in connection with Case No. Special 01 of 2022 is hereby upheld and accordingly it is affirmed.
