There is no substance in the revision that complains of alleged contempt committed by the parties in not allowing the Commissioner to carry out the terms of warrants. The proceedings were in the course of arbitration and it appears that arbitration proceedings were concluded and it has obtained its finality in higher forum. The court below found that the Commissioner himself was guilty of very serious lapse of not informing about his appointment pursuant to a Court warrant and pointing out to the duty of the Commissioner not having served a notice of Commission to the parties as necessary prelude to carry out the terms of the warrants, the court observed that the Commissioner cannot complain of obstruction in his work when he has not done what was required to do. I find no scope for interference. The revision petition is dismissed.
