Review Petition no. 320/2018 & CM Nos. 34092-93/2018

The applicant was the fourth respondent in MAC Appeal No. 448/2014, which was heard and decided by judgment passed on 03.11.2017. He has come up for review, almost a year after the said order being passed, the application for condonation of delay stating that there has been a delay of 18 days only. This submission on its face is incorrect. The reference to “oversight” on the part of the counsel earlier engaged cannot be presented as a reason or ground for seeking condonation of such extraordinary delay.

There being no plausible explanation, the prayer for condonation of delay is declined.

Consequently, all the applications including, for review are dismissed.
