The learned counsel for the petitioners refers to the MLC report issued by the All India Institute of Medical Sciences (AIIMS) which records that the patient was conscious, coherent and well oriented about the time and place.

The petitioners' breath alcohol test was conducted; his blood alcohol test reported 52 mg/100 ml alcohol, but the report also records an external injury i.e. small "abrasion over the left forearm with a cut of 3 cm in length, transversely placed over the inner side of the said forearm and as well as a bruise over the right forearm". It was concluded in the MLC report that the said injuries are simple.
