For Respondents/ State : Shri Gagan Tiwari, G.A.

---

**Hon'ble Shri Justice Goutam Bhaduri**

**Order On Board**

**14.12.2020**

Heard

1. Learned counsel for the petitioner would submit that certain electric pole has been implanted in the middle of the land thereby the petitioner is neither able to enjoy the said land nor is able to construct the house. He further submit that if it had been done in the border of the land, the petitioner may not have objected it but then the unfettered power has been used to plant the pole at the middle of the land. Under the circumstances, the petitioner has made a representation to Executive Engineer (Respondent No. 3) so that the alignment of the poles may be changed which may render that the petitioner may use the land to the utmost. He further refers to the documents and photographs.

2. Considering the nature of complaint made, it is obvious that if the pole is in middle of the land then it may render the use of land completely useless. Under the circumstances, Respondent No. 3 is directed to look into the matter and inspect the spot so that the alignment of the electric pole, if any may be changed, so that the petitioner is able to use the land to the optimum. It is directed that the representation of the petitioner may be decided within a period of 60 days and if it is feasible to align the pole, that should also be done within such time.
3. With the aforesaid observation the petition stands disposed of.
