ORDER

The writ petition has been filed seeking for the issuance of a Writ of Certiorarified Mandamus, to call for the records relating to the impugned Disqualification Slip in Annexure-9 issued by the 2nd respondent dated 26.07.2021 and quash the same as illegal and consequentially to direct the respondents to conduct remeasurement of the Petitioner's Chest and permit the petitioner to participate in the further selection process conducted by the 1st respondent in pursuant to the notification no.1/2020 dated 17.09.2020 within the time frame to be stipulated by this Court.

2. Heard the learned counsel appearing for the petitioner and the learned Standing Counsel appearing for the respondents.

3. By consent of both parties, this writ petition is taken up for final disposal at the admission stage itself.

4. According to the petitioner, pursuant to the notification issued by the 3rd respondent for the post of Sub-Inspector of Police (Grade II Police Constable (Men & Women/Transgender), Grade-II Jail Warder (Men & Women) and Fireman for the year 2020, the petitioner applied and undergone selection process. He successfully came out in written examination, however, he failed in the physical test. According to the petitioner, the Board has measured wrongly his Chest measurements as 82 cms (normal) and 86 cms (expansion). He preferred an appeal to the 2nd respondent, who in turn, without re-measuring, simply issued impugned disqualification slip dated nil. As per notification, the Chest measurements should be 81 cms and that the expansion should be at least not less than 5 cms. According to the petitioner, he satisfied the criteria regarding the chest measurements, however, without re-measuring the same, the 2nd respondent issued disqualification slip, which cannot be sustained and it is liable to be set aside.

5. A counter affidavit has been filed on behalf of the respondents, wherein, in para 8, it has been categorically stated that after clearance of the Written examination, the petitioner was called to appear for physical measurement test before the Sub Committee on 26.07.2021, where, the petitioner had 82 cms as normal chest measurement and showed only 4 cms on expansion as against the required expansion of 5 cms. On appeal, the petitioner was again measured by the Appeal Committee and had 82.00 cms in the normal chest measurement and had 86.00 cms on expansion as per PET Coding sheet. Failing to show 5 cms expansion as mandated, the petitioner was disqualified.

6. Generally, the Constitutional Courts do not interfere with the selection process which would be conducted by following the procedures uniformly to all the candidates, but only on exceptional circumstances i.e. if the process of selection is in violation of the established rules or certain malpractices or irregularities

occurred on account of the act of the authorities, while conducting the process of selection. In the present case, during the physical test, the petitioner was disqualified since he had 80 cms in normal Chest measurement and had 83 cms on expansion as against the minimum required measurements. The petitioner failed to show the required expansion of 5 cms which is below the prescribed norms. The petitioner disputed that the respondents have not measured properly. This is a disputed fact and this Court while exercising jurisdiction under Article 226 of the Constitution, cannot go into the disputed fact and decide the matter. In this regard, it is worthwhile to refer a decision of a First Bench of this Court rendered in W.A.No.285 of 2020, dated 3.6.2020, wherein, it has been observed as under:

“Heard learned counsel for the appellant and learned Additional Advocate General for the State.

2.The appellant fell short of the required chest expansion measurement for selection on the post of Group-II Police Constable during the selection process. He has come up contending that the procedure deployed for such measurement was defective and that the appellant otherwise has been able to attain the required measurements in another selection relating to CRPF.

3.We have considered the submissions raised and we have also heard the learned Additional Advocate General, who submits that the chest expansion measurement is carried out on the spot at the time of physical inspection which is executed in terms of the rules, and the appellant having failed to acquire the required measurement on expansion, which fell short of 2 cms., there is no reason as to why there should be an interference under Article 226 of the Constitution of India.

4.Having considered the submissions raised, we are of the view that there is no such material so as to indicate either any malafides or any procedural flaw so as to establish that the measurement carried out at the time of chest measurement of the appellant was flawed in any way or was in violation of any rules. There cannot be an enquiry into this, inasmuch as this being a matter of exercise undertaken by the respondents and the absence of any malafides or any violation of the rules or procedural flaw disentitles the appellant from approaching this Court under Article 226 of the Constitution of India.”

7.For the foregoing reasons, this Court does not find any merit in the Writ Petition to entertain the same. Accordingly, the Writ Petition fails and it is dismissed. No costs. Consequently, connected miscellaneous petitions are closed.
