In Re : CRAN 1 of 2011 (Old CRAN 2711 of 2011)

We have perused the application for condonation of delay. Averments in the application are vague and do not make out a case of condonation of delay and interference in an order of acquittal which was passed more than a decade ago. Accordingly, application for condonation of delay is dismissed.

Consequently appeal being CRA 56 of 2011 is dismissed as barred by limitation.
