ORDER

The Writ Petition is filed seeking for a Writ of Certiorari, to call for the records relating to condition No.3 of Official Memorandum dated 30.12.2019 in No.B-325/2019-PP.II issued by the first respondent and quash the same as illegal and void.

2. The case of the petitioner is that, it is a Company engaged in import of Timbers and other related goods from various countries across the world to Chennai Port Trust and other Ports of India. The Plant Quarantine (Regulation of Import into India) Order, 2003 framed under Sub Section (1) of Section 3 of the Destructive Insects and Pests Act, 1914 (2 of 1974), regulates the import of various agricultural articles including wooden logs into India. Order 9 of the said regulation provides that, a timber is to be imported into India, only when the timber has been appropriately fumigated/treated and is accompanied by a phytosanitary certificate issued at the country of export. However, order 9(2), provides that if on inspection,

it is found that the wood has not been fumigated, it shall be fumigated/treated at the port/container freight station or Inland container depot and as per the Plant Quarantine Order of 2003 vide order 14, empowers the first respondent to grant relaxation of any of the conditions stipulated by the order. However, taking into account the difficulties faced by the wooden industries in India and having regard to the fact that “Methyl Bromide” fumigation is prohibited in the European Union, Latin America and Western Africa and it is impossible to have off shore fumigation using Methyl Bromide on the agricultural products covered by the said P Q Order of 2003, the first respondent in exercise of its powers under order 14(2) in Chapter VI of the P Q order, 2003, granted relaxation of fumigation regulation. By the said relaxation accorded, the Government had relaxed the requirement under Order 9 of P Q Order, 2003, for off shore fumigation and had permitted import of wooden logs and other products warranting “methyl bromide” fumigation. The said relaxation has been relaxed by the first respondent periodically vide its office memorandum dated 28.06.2017 and relaxing the requirement of off shore fumigation of timber and permitting the fumigation of timber using “Methyl Bromide” at the port of discharge. However, the said relaxation has been granted subject to five
