3. When the matter came up for hearing, the learned Special Government Pleader appearing on behalf the respondents submitted that it is true that the drainage canal was cut open, however, later on the mistake was realised and now the pillar itself is located only adjacent to the canal and the portion that is cut open will be again closed and it will be maintained and no pillar will be there inside the drainage canal. The corrective action now taken will be clear from the following picture that is now produced by the learned Special Government Pleader.
