4. The grievance of the writ petitioner was that the Government is not interfering with the petitioner's right over Survey No.176/1. As the Government itself, through its Block Development Officer Cuddalore, has approached the petitioner, it shows that the Government had recognized the rights of the petitioner over the property.

5. In so far as the grievance expressed by Mr.Sunil, that the Padayachis would not be in a position to take a bath in the tank, since the tank has not been maintained well, now that the Government has taken steps to deepen and restore the tank at its cost, the grievance of the Mr.Sunil's client stands addressed.

6. Recording the proceedings dated 14.11.2025 and 18.11.2025, the writ Petition itself stands disposed of. Consequently, connected writ miscellaneous petition is closed.

7. By way of abundant caution, Mr.Gururaj states that the permission has been granted only for the purpose of deepening and beautification work of the tank. He fears that the toilet and such other public convenience buildings may

be constructed in an around the tank. In case, the BDO has any such proposal,
he shall take permission of the trustees and thereafter proceed.
