put up by the petitioner on his patta land. Since, the high tension wire is above the proposed construction, he had requested the respondent Nos.1 to 3 to shift the alignments. He had paid the necessary charges. Pursuant to which, the official respondents have also erected two poles, which, according to the official respondents, it is on the patta land of the petitioner. However, the respondent Nos.5 and 6 are objecting to the same stating that the poles have been erected on their patta land and high tension wire will crisscross over their patta land.

4. The private respondents appear to be the owner of the adjacent lands, above which, the high tension wire line is expected to be diverted.

5. The official respondents shall consider the objections raised by the private respondents as well as the request made by the petitioner, after causing the land to be surveyed by the land Surveyor.

6. Under these circumstances, liberty is given to the petitioner to approach the land surveyor for surveying his land. Survey of the land shall be conducted in the presence of the petitioner and private respondents. Thereafter, the official respondents shall take steps to shift
