Patient again had left Upper Limb and Lower Limb Hemiparesis after 15 days of visit, he was examined and advised fresh NCCT HEAD, MRI Brain with MR Angiography, Bilateral Carotid Doppler, Blood Investigations in view of newly developed weakness and advised to review with NCCT head and the same was done on 28.11.2024 which reveals no significant abnormality Ischemic changes. On 07.01.2025, the petitioner presented himself in dispensary and complained about left sided body numbness and weakness and chest pain.

5. In this view, it seems that the petitioner is in need of urgent medical assistance and despite regular visits to the hospital there is no substantial improvement.

6. Mr. Arya, learned counsel for the respondent states that in the past, the petitioner has jumped parole and hence opposes the grant of parole.

7. *Vide* Order dated 07.06.2024, despite the petitioner having jumped parole in 2015, the petitioner was granted parole and surrendered late by 19 days. The late surrender by 19 days was on account of some confusion at the end of the petitioner. However, the fact is that the petitioner has self surrendered and was not arrested.

8. Mr. Arya, learned counsel further states that there are 6 involvements of the petitioner in other cases.

9. It is stated that out of 6 cases, the petitioner has been acquitted in 3 cases and in one case, the petitioner has already been granted bail and in another case, the appeal against the conviction is pending. Further in one FIR, the police station is not mentioned, hence, the same is not traceable.

10. I am of the view that the medical condition of the petitioner demands the urgent medical treatment. For the said reasons, I am inclined to allow the petition.
