

**CWP-14988-2026****-2-**

Division in May, 2013 as discernible from Annexure P-4. Further, 63 posts were reserved for SC (MZB) category and petitioner belongs to the aforesaid category, attempted to submit the online application form and successfully registered on 03.05.2026 as discernible from Annexure P-6. Upon final submission, the system declared that the petitioner was not eligible stating that minimum percentage required in diploma for the post is 60%. As such, no relaxation in filling forms were given to SC (MZB) category despite 50% reservation. The petitioner submitted a representation dated 04.05.2026 (Annexure P-9) for permission to submit the form but no action was taken. The last date for online submission was 10.05.2026. Learned counsel for the petitioner contends that the impugned advertisement provides excessive and unconstitutional requirement of 60% marks for diploma holder which is contrary to Articles 14 & 16 of the Constitution of India.

3. *Per contra*, learned counsel for the respondent-Corporation refers to the eligibility criteria under Clause 2 of the advertisement at Page 23 and submits that the basic and professional qualification for the post of Junior Engineer/Electrical is provided. It is contended that the criteria satisfies the principle of reasonable classification, inasmuch as diploma holders in Electrical and Electronics Engineering were also made eligible to apply and compete alongside B.E./B.Tech degree holders, even though, subject to securing a minimum of 60% marks, whereas, the minimum requirement for B.E./B.Tech (Electrical) candidates was 50% marks. The aforesaid criteria is justified on account of the clear distinction in the level of qualification between a diploma and a degree. A B.E./B.Tech degree in engineering is a higher qualification than

a diploma, therefore, prescribing a higher minimum percentage requirement of more than 60% for diploma holders does not amount to discrimination, rather, it advances the principle of meritocracy, which is the foundation of public employment ensuring that selection is based on merit and suitability.

4. Having heard learned counsel for the parties and after perusal of the record with their able assistance, it transpires that the eligibility criteria laid down in the advertisement (Annexure P-5) is reproduced as under:-

“*Eligibility Criteria*”

2.1 *Basic and ProceSSIONal Qualification:*

TABLE-B

Sr. No.	Name of Post	Basic and ProceSSIONal qualification
1	Junior Engineer/Electrical	Full Time Regular 3/4 years Diploma in Electrical/Electrical and Electronics Engineering from an institute recognized by State/Central Govt. with minimum of 60% marks. B.E./B.Tech./B.Sc. Engineering in Electrical/Electrical and Electronics Engineering with a minimum of 50% marks. AMIE in Electrical/Electrical and Electronics Engineering with at least 50% marks from Institution of Engineers (India) Calcutta.

Note: Candidate(s) must have passed above qualification upto last date of Registration/Submission of onlince application.”

5. The basic and professional qualification for the post of Junior Engineer (Electrical) required a full-time regular diploma in Electrical and Electronics Engineering with a minimum of 60% marks and a B.E./B.Tech degree in Electrical and Electronics Engineering with a minimum of 50%

**CWP-14988-2026****-4-**

marks. There is no dispute that a B.E./B.Tech degree is a higher qualification than a diploma in Electrical and Electronics Engineering. Accordingly, prescribing a higher benchmark of 60% marks for diploma holders is rational and bears a clear nexus to the objective sought to be achieved to select the candidates on the principle of meritocracy as the qualifications of diploma holders and degree holders are not comparable or equivalent. As such, degree holders are made eligible to participate in the selection process for the post of Junior Engineer (Electrical) with a minimum of 50% marks, whereas diploma holders are eligible to participate with a minimum of 60% marks.

6. In view of the above, this Court finds no merit in the present petition and the same is accordingly dismissed. Further, insofar as reservation is concerned, 63 posts have been reserved for the category in which the petitioner sought to participate. As such, the eligibility criteria satisfies the test of reasonable classification and does not violate Articles 14 and 16 of the Constitution of India.
